

# College of Nursing – Grad

Last Updated: 6/25/2024

Program Contact: Terri Enslin

Many professions and occupations require a government-issued license, certification or endorsement for employment. Requirements vary by state and territory, and go beyond completing a degree or program. As a result, Xavier University cannot guarantee licensure, certification or endorsement. Pertinent information on Xavier’s licensure disclosure status by state/territory with regard to our APRN/Nurse Practitioner programs (FNP & PMHNP) can be found below. [Please review important licensure information here](#)

In addition, the College of Nursing and all its programs are subject to the rules and regulations of the Boards of Nursing in each state/territory where its students reside. Based upon individual state/territory rules and regulations, Xavier University may not be able to offer admission to residents of each US state/territory into each program. Information relative to state/territory admission and authorization can also be found below.
